000,000 Bushels or an In-  
crease of 45,000,000 Over  
Last Year.

(By Leased Wire to Evening Herald.)

Washington, May 7.—The greatest crop of winter wheat ever grown, one-fifth again as large as the record crop grown last year, and more than half again as large as that harvested in 1912, is indicated by statistics announced by the department of agriculture today.

In all 630,000,000 bushels will be produced if the highly favorable conditions existing since the crop was planted last fall, continue until harvest time. The acreage abandoned through unfavorable conditions of the winter amounted to only 1.1 per cent of area planted, an unusually low area. This makes the area remaining to be harvested a record one of 25,  
87,000 acres.

Indications are that Kansas will have a crop of 132,000,000 bushels or 45,000,000 bushels more than last year.

## May Crop Report.

Washington, May 7.—Department of agriculture's May crop report today announced:

Winter wheat—Condition 95.9 areas remaining to be harvested 25,87,000 acres, or 1,119,000 acres less than planted last autumn, but 2,688,000 acres more than harvested last year. Indicated yield per acre, 17.5 bushels. Indicated production, 630,000,000 bushels.

Rye condition, 92.4. Hay lands condition, 99.9. Hay on farms, 7,  
832,600 tons. Pasture condition, 88.3. Spring plowing, 76.9 per cent completed. Spring planting, 56.4 per cent completed. Average remaining on May 1 and estimated production by states (thousands omitted in acreage and production) follow:

and lace, made in the prevailing ruffled style, the skirt partly draped, with broad embroidered bounces of net, and narrower ones with lace edges. The bodice has the lace and net in a soft kimono blouse effect.

Mrs. Bryan, wife of the secretary of state, will wear a very modish gown of beige taffeta, which has a large flowered pattern of roses in deep shades all over it. The draped skirt shows a petticoat in front of embroidered old rose chiffon. The chicon is also inserted in the softly draped waist but a line of heavy white and very fine lace, edged the V-shaped neck opening. Mrs. Bryan selected one of her small touques to wear with this dress—a becoming model in black tulle and jet.

Mrs. Houston, wife of the secretary of agriculture, will wear white—a very pretty model in lace, with touches of jet and made-over white. The sash and girdle are of old gold satin.

Mrs. Lane, wife of the secretary of the interior, has chosen from among her new frocks, a stylish but simple—one of black flowered tissue over lavender chiffon. Both these gay materials form the bodies with ivy-leafed lace around the V-shaped opening at the neck.

Mrs. Daniels, wife of the secretary of the navy, has chosen a becoming dress of pink colored charmeuse with over draperies of blue chiffon which is embroidered in pansies. The purple straw hat she is to wear with it is wreathed with pansies.

The close was easy, a shade off to a like advance compared with last shading of cash demand weakened corn. Later some reaction took place.

The close was weak, 5¢ to 5¢ 1/2 net lower.

Oats held steady. Offerings were only moderate.

Provisions ruled firm. The chief influence was a rise in the price of hams.

WEDDING QUIET ONE AS  
COMPARED WITH OTHERS

The wedding ceremony has been awaited with eager interest by the social official intimates of the Wilson circle. But compared with some of the brilliant wedding functions of the past, this will be comparatively quiet, participated in mainly by the immediate family and relatives, and the president's official family made up of the vice president and members of the cabinet, with their wives. This is in accordance with the tastes and wishes of the parties and the White House circle, and also to some extent due to the absorbing attention which the president and his cabinet have been giving of late to the Mexican and other public matters.
